

PRESS RELEASE

May 7, 2018

On May 1, 2018 the City Council of the City of Liberty voted to accept the resignation of City Manager, Gary Broz, to be effective June 15, 2018. Prior to submitting his resignation Gary accepted a job as the City Manager for the City of Eagle Lake, Texas. Gary served as Liberty's City Manager since 2009. During that time Gary has worked diligently to make the City of Liberty a better place to live and work. During his tenure significant improvements were made throughout the City, including but not limited to improvements to the electric system, the wastewater system, the City Park, and the airport. He also led the city through multiple flooding events as well as Hurricane Harvey. The City Council appreciates the hard work and conscientious effort that Gary has given to the City of Liberty these past nine years. On behalf of the City of Liberty, the Council wishes him the best moving forward. In the interim, the City Council is exploring options for the hiring of an interim city manager until such time that a new full-time replacement can be hired.
