To: All water customers In the following subdivisions:

HORSESHOE LK EST

From: John Sexton, General Manager

Water Boiling Urged

Date: 10/18/2018

Due to recent flooding in your area The Texas Commission on Environmental Quality has required LAKE LIVINGSTON HORSESHOE LK EST system PWS1460143 to notify all customers to boil their water prior to consumption (e.g., washing hands/face, brushing teeth, drinking, etc). Children, seniors, and persons with weakened immune systems are particularly vulnerable to harmful bacteria, and all customers should follow these directions.

To ensure destruction of all harmful bacteria and other microbes, water for drinking, cooking, and making ice should be boiled and cooled prior to use for drinking water or human consumption purposes. . The water should be brought to a vigorous, rolling boil and then boiled for two minutes.

In lieu of boiling, individuals may purchase bottle water or obtain water from some other suitable source for drinking water or human consumption purposes.

When it is no longer necessary to boil the water, the public water system officials will notify customers that the water is safe for drinking water or human consumption purposes.

Once the boil water notice is no longer in effect, the public water system will issue a notice to customers that rescinds the boil water notice in a manner similar to this notice.

Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (for example, people in apartments, nursing homes, schools, and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.

If you have any questions regarding this matter please call Lake Livingston Water Supply at the number listed above.
